Hard skills

- Agile
- Scrum
- Teamwork
- Communication

Languages

Dutch – Excellent in both speaking and writing

English – Good in both speaking and writing

German – I understand in speech

Who am I?

I want to create games because I want to give others the enjoyment I got from games. This is why I am a gameplay programmer. I enjoy working on gameplay features. I have the most experience with **Unity and C#**, which can be found on this page. Additionally, I like taking the lead in the project, which I have often done in the role of a **scrummaster**.

Work Experiences

InControl 2023 September - 2024 Febuary - Itern software developer

I have worked on the engine of various simulation software that we offer. I have also focused on improving the **Routing DLL** of Pedestrian Dynamics.

XR-Lab 2023 Febuary - 2023 July - Itern VR game developer & scrummaster

I worked on 2 projects using an agile work method. <u>"Kara-oké"</u> is a VR karaoke game commissioned by AVROTROS. I also worked on <u>AR Gpal</u>, where we had to translate the customer's app/webapp to AR.

Neon Origins 2022 May – 2023 Febuary - Game developer

Here, I worked on a 2.5D Metroidvania game, focusing mainly on **gameplay** and how it plays. I also did some **game design**. I worked on **refactoring and rebuilding** many <u>player movement</u> options. I made improvements to the <u>custom physics system</u>. Additionally, I worked on a <u>pick-up system</u>.

New York Pizza 2021 - present - Shift manager & pizza cook

I am a master in preparing **delicious pizzas** and have a creative approach to toppings. Moreover, I am an **excellent leader** with organizational skills that create a **positive work environment** and bring out the best in the team. My dedication to **quality and customer satisfaction** is of great importance to me.

Inmeba 2019 January – 2020 June - ICT specialist

My task was to design digital nameplates for houses and apartments. I had to prepare them for printing and laser printing, and later, they were sent to the machine.

Education

Media college Amsterdam 2020 – 2024 - Software development/game developer

Here, I learn to create agile games, mainly using Unity and C#. You can find my <u>portfolio</u> showcasing my work. Additionally, I also have classes in Dutch, English, and mathematics.
